

II. Political Action Committees

Active in Indiana during 1999

These committees registered with the Indiana Election Division prior to or during 2001. All remain "active" unless otherwise indicated. The number in parentheses next to the committee name is the Election Division's file number. This number is assigned to each political action committee according to the chronological order in which the committee filed its statement of organization with the Election Division. A higher file number therefore indicates a more recently established PAC. For financial data for these and other committees, refer to the campaign finance files available at the Election Division or visit our website at www.IN.gov/sos/elections for detailed information.
